5.	Vibroprocess Srl, via Calamandrei 81, 20862 Arcore (MB), Italy	YES	YES

The sent tenders met all formal criteria contained in the contest of tenders, confirming the potential of the tenderers to carry out the order, and at the same time lack of capital or personal Connections with the Buyer. Tenderers made also bid bonds in the form specified in the Terms of Reference of the Contest of Tenders. The offer from JML-Industrie did not originally contained the full scope of supply in accordance with the contest of tenders, but was later supplemented as a result of the query made by the Buyer.

As a result, all of the tenderers have been admitted to further part of contest of tenders, namely to assess the merits based on awarding points for each criterion under review, indicated in the contest of tenders.

- The opening of bids took place on 25th August 2016 at 3:30 pm at the Purchaser, ie Metalpol Węgierska Górka Sp. o.o. Kolejowa Street 6, Węgierska Górka.
- Award criteria of the tenders and summary of the tenders.

A tender was based on the following criteria:

No.	Type of the criteria	Score	Evaluation method
1.	Price	From 0 to 40	Ratio of the lowest prices to the price in the rated tender, multiplied by 40.
2.	Age of machine	From 0 to 10	New machines receive 10 points, Used machines receive relatively fewer points than furnishing new - by 1 points less for each year of age of machine, ie. for example, machines 1 year old gain 9 points and five years old 5 points. Maximum age of machines - 10 years.

3.	The possibility of pre-mixing of molding sand	From 0 to 20	Scored is the ability of pre-mixing of molding sand in the sand cooler. In the case of confirmation of the possibility of pre-mixing of the molding sand in the sand cooler are awarded 20 points.
4.	Energy consumption in kWh per 1ton of cooled molding sand	From 0 to 10	Ratio of the energy consumption in the tender with the lowest energy consumption to the energy consumption in the rated tender, multiplied by 10.
5.	Payment period	From 0 to 10	Ratio of the payment period in the rated tender to the payment period in the tender with the longest payment period, multiplied by 10.
6.	Warranty	From 0 to 10	Ratio of the warranty period in the rated tender to the warranty period of the tender with the longest warranty period, multiplied by 10.

The maximum number of points possible to achieve was 100.

Taking into account the above criteria, bids presented by the tenderers in the contest of tenders obtained the following scores:
